PROFESSIONAL SUMMARY

Computer Science Engineering student with hands-on knowledge of Python, C, Java, SQL, Data Structures and Algorithms, and web technologies. Experienced in developing academic and personal projects involving programming, databases, and AI-based applications. Strong interest in software development and cloud computing, with a passion for problem solving and learning new technologies. Seeking a software development or cloud engineering internship.

TECHNICAL SKILLS

Programming	Python, C, Java, SQL
DSA	Arrays, Strings, Linked Lists, Stacks, Queues, Trees, Graphs, Searching, Sorting, Recursion
Web	HTML, CSS, JavaScript, Angular
Databases	SQL, Oracle Database
Tools	Git, GitHub, VS Code, Google Colab, Android Studio
Core CS	DBMS, Operating Systems, Computer Networks, OOP, Design & Analysis of Algorithms
Other	Artificial Intelligence, Machine Learning Basics, Cloud Computing Fundamentals

PROJECTS

Smart Spam & Scam Detection System | Python | Machine Learning | NLP

- Developed a concept for detecting suspicious messages, links, fake job applications, and online scams.
- Applied text-processing and machine-learning concepts to identify potentially suspicious content.
- Designed the system to classify inputs as legitimate or suspicious.

Screenshot Search Tool | Python | OCR | Image Processing

- Developed a tool that extracts text from screenshots using Optical Character Recognition.
- Enables users to search and retrieve information from text contained within screenshots.
- Implemented image-to-text processing and keyword-based searching.

Student/Academic Management Database | SQL | Oracle

- Designed relational tables for managing student and academic information.
- Implemented SQL queries, constraints, joins, and database operations.
- Applied primary keys, foreign keys, normalization, and transaction concepts.

EDUCATION

Bachelor of Technology – Computer Science & Engineering

Siddhartha Academy of Higher Education | 2024–2028 | Currently pursuing 3rd year

Relevant Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Artificial Intelligence, OOP, Web Technologies

EXPERIENCE

Student Developer / Academic Projects — Siddhartha Academy of Higher Education | 2025–Present

- Developed programming assignments and academic projects using Python, C, Java, and SQL.
- Worked with searching, sorting, graph algorithms, Minimum Spanning Tree, and tree-based algorithms.
- Practiced programming problems on online coding platforms and used Git/GitHub for project management.
- Gained practical exposure to AI, databases, computer networks, operating systems, and web technologies.

CERTIFICATIONS

- Google IT Automation with Python – Coursera *(add only if completed)*
- SQL Certification – HackerRank *(add only if completed)*

CODING & TECHNICAL PROFILES

GitHub: github.com/yourusername | LinkedIn: linkedin.com/in/yourprofile
LeetCode: leetcode.com/yourprofile | HackerRank: hackerrank.com/yourprofile

SOFT SKILLS

Problem Solving • Communication • Teamwork • Time Management • Adaptability • Continuous Learning
