

SUDHARSHANAN SATHISHKUMAR

SOFTWARE DEVELOPER

ABOUT ME

Enthusiastic learner and emerging Software Developer with growing experience in web development and a strong drive for continuous learning. Eager to strengthen frontend and backend skills by contributing to real-world projects and collaborating in team-based environments.

EDUCATION

• Bachelor of Engineering(Computer Science) 2023-2027

M.KUMARASAMY COLLEGE OF ENGINEERING.
CGPA: 7.66 (Till 4 Semester)

• Higher Secondary Education 2021-2023

KONGU MATRIC. HIGHER SECONDARY SCHOOL.
PERCENTAGE: 87.16%

PROJECTS

• CIVIC WELFARE COMPLAINT MANAGEMENT SYSTEM 2025

Designed a cross-platform mobile application using Flutter that enables citizens to report civic issues, track complaint status, and receive real-time updates. Created intuitive UI/UX designs including wireframes, interactive prototypes, and responsive layouts for dashboards, reporting workflows, and feedback modules. Focused on usability, accessibility, and consistent visual hierarchy to enhance user experience and navigation efficiency across Android and iOS devices.

• HOTEL RESERVATION SYSTEM 2024

Hotel Reservation System is a Java-based application that simplifies hotel operations with a user-friendly interface. It takes care of the entire guest life cycle by customer registration, room booking, inventory management, and billing facilities. Hotel personnel are able to make bookings, keep track of room availability in real-time, and create bills, which improves business efficiency and guest comfort.
